# ABOUT CTU

The CTU Career Campus, a division of CTU Training Solutions (Pty) Ltd, is a private tertiary education provider specialising in full time (1 to 3 year qualifications) and part time studies (short courses and skills development programmes).

We offer a variety of up-to-date IT, design and business programmes with national qualifications and international certifications which develop skills and prepares the graduates for a future filled with exciting opportunities at our 15 career campuses countrywide.

Whether a student decides to study a 1 year programme or a 3 year qualification, CTU will always include or provide an option for an international vendor-related certification and create an opportunity for CTU students to GET AHEAD.

In line with industry requirements, CTU Training Solutions (PTY) Ltd is fully accredited by the MICT Seta (ACC/2006/07/186) through the Quality Council for Trades and Occupations (QCTO). We are also accredited by various other SETA's.

CTU Training Solutions (PTY) Ltd (Pretoria Campus) is also provisionally registered as a private higher education institution in terms of section 53(3) of the Higher Education Act, 1997 (Act N° 101 of 1997), and Regulation 16(4)(b) of the Regulations for the Registration of Private Higher Education Institutions, 2002. (N° 2014/HE07/004).\*

## #WHOAMI?

### BE THE NEXT SUCCESS STORY

Akasha Mhlanga received a bursary to study at CTU Pretoria. She studied IT Technical Support in 2015 and IT Solutions Expert: MCSA in 2016. She started working at CTU's Centre of Excellence in 2017, guiding students towards making the correct career choices.

## CTU GAP YEAR PROGRAMME

The gap year involves exploring the world outside of your comfort zone to not only prepare you for the adult life but also to learn more about yourself from a different perspective, with the intent to enter or return to further education.

Choose between:

- 6 month Gap Year Programme  
Cost: R11 999
- 12 months Gap Year Programme  
Cost: R22 999

Programmes commence July 2017 & February 2018

View Akasha's success story:  
[www.ctutrainng.ac.za/success-stories/](http://www.ctutrainng.ac.za/success-stories/)

# IT TECHNICAL SUPPORT

The outcome of this programme creates entry-level systems support professionals with good fundamental knowledge of the information technology field, coupled with interpersonal and business skills, allowing for specialisation in various systems support fields.

# BUSINESS ANALYSIS

Business analysis is a vital instrument within the business environment to ensure that information technology is able to provide effective solutions for business enterprises. The development of business analysts through a suite of qualifications will have a positive impact on the broader economy of South Africa. It will also assist with bringing South Africa in line with international trends and satisfy industry requirements, at the same time bridging the skills gap in the ICT sector.

# IT SOLUTIONS EXPERT: MCSA & MCSE

A qualifying student at this level will be a well-rounded IT professional building on foundational technical skills. During the 2nd year, learners will acquire specialised skills in the management and maintenance of databases, as well as data repositories.

# NETWORK PROFESSIONAL: CISCO

This in demand curriculum provides the student with all the skills needed to set up and configure an advanced network infrastructure. This includes Small Office/Home Office (SOHO) networks, all the way to the new "Campus Style" network infrastructure.

# SOFTWARE DEVELOPER & BI DEVELOPER

Demonstrate your expertise at designing and developing fast and fluid applications that are the focal point of the user experience. Prove that you have the skills and techniques needed to design, build and deploy solutions that deliver more data to more people across the organization.

# WEB DEVELOPMENT

Pursuing a career in Web development at CTU will ensure the student acquires the requisite skills to become a Web designer after completing the 1st year programme. At the end of the 2nd year, the student will have the knowledge to create dynamic web-based, database-driven applications, thereby ensuring he is a fully qualified web developer.

# DIPLOMA: IT NETWORK DESIGN & ADMINISTRATION\*

The diploma will provide a qualifying student with the relevant skills & knowledge required in order to not only implement networking solutions, but to analyse configurations, recommend solutions as well as identify shortcomings in his/her own configurations. This will allow students to work in enterprise level networks, or consult companies as to the requirements for their networks.

## IT FACULTY

# DESIGN FACULTY

# GRAPHIC DESIGN

The purpose of this qualification is to provide a foundation for a variety of design-orientated fields, in that the student gains competencies in the generic processes of various design specialisations. Graphic designers work with images, text and media. They utilize advanced technology to create visual and multimedia presentations. Multimedia designers integrate audio, animation, graphics and video into presentations for CDs, DVDs, television programmes and websites.

# COMPUTER AIDED DRAUGHTING & DESIGN

Architects, engineers and manufacturers are constantly looking for the latest technology to simplify costs and speed up their processes but more importantly, companies are searching for individuals who can operate these technologies fluently and effectively.

Draughtsmen and detailers are involved in the design and planning stage of any specific industry, whether it be in the mechanical, architectural or structural industries. The draughtsman will design, detail and sometimes oversee the construction or manufacturing process.

Draughtsmen design and prepare technical drawing sets for the use of the construction or manufacturing process, using advanced software to bring the project to life. The draughtsman is also involved in the 3D presentation stage of the conceptual design.

# DIPLOMA: VISUAL COMMUNICATION\*

Visual communication implies the development of design solutions to persuade, entertain, inform, and educate an observing audience regarding products, services and ideas. The field of visual communication encompasses the development of corporate identity, packaging design, editorial design, promotional campaigns, interactive media and web design.

The purpose of this qualification is to equip students to:

- Develop innovative and appropriate design solutions.
- Effectively communicate design ideas.
- Advance students' technical skill in the execution of design solutions.
- Provide students with a theoretical knowledge that underpins practical execution.

# NEW TO CTU

# TOURISM & HOSPITALITY

Dreaming about a career in hotel management, tourism or restaurants and event management? This is the perfect programme for you. Learn more about these dynamic, diverse and highly competitive fields and set yourself apart as an expert with internationally recognised qualifications.

# PROJECT MANAGEMENT

Project management consists of the planning, organisation, motivation as well as the control and allocation of resources needed to achieve specific goals and objectives. The primary purpose of this qualification is to provide learners with a foundation of basic project management knowledge and skills which can be used to build further project management related competencies.

# GENERIC MANAGEMENT

The scope of generic management covers five domains: leadership, managing the environment, managing relations, managing knowledge and the practice of management. This qualification is aimed at improving the effectiveness and leadership abilities of middle managers in various occupations in South Africa, in private and public business entities as well as non-governmental organisations.

# FINANCIAL ACCOUNTING

This programme will provide you the knowledge and practical skills in bookkeeping, income tax, financial accounting, reporting standards, financial management, corporate strategy, management accounting and research.

# OFFICE ADMINISTRATION

If you want to help any company run in an organised way, this is the programme for you. You will gain bookkeeping skills and all-round office knowledge to set up, run and manage an efficient office environment. These skills will make you employable in any business.

# BUSINESS MANAGEMENT

Want to be a part of the company's management team? Help the business to grow and increase profits by enabling yourself to run a company efficiently. Through this programme you will learn the principles of business management, financial accounting and gain knowledge about public and labour relations.

# ENTREPRENEURSHIP

Dreaming to start, manage and develop a small or medium-sized business? Every entrepreneur need to be financially-minded to make your business a success. Ensure your existing or future company runs efficiently by acquiring the necessary skills and knowledge. Students doing this specific programme will obtain accounting, commercial and financial skills that will help them be successful in the business sector. Other skills include personal skills, strategy and technical knowledge.

# HR MANAGEMENT & PRACTICES

Human resource managers are in charge of the management process of an organisation's workforce. You will gain the following skills and learn to integrate them into an organisation's business processes: strategic planning for human resources management and practices; acquisition, development and utilisation of people; establishment and improvement of labour and employee relations; and compensation and administration related to human resource management and practices.

Register for the mid-year 2017 intake or  
February 2018 intake

# THE SANDTON LEARNING EXPERIENCE

CTU Sandton is a collaborative training environment that provides access to innovative learning and world-class expertise, enabling you to experience learning in a unique way.

Do you find it difficult getting time away from the office to attend a week or more of training in a traditional classroom? Well, we have the perfect solution for you. We have introduced an all new drive-time training schedule allowing you to beat the traffic and maintain the right balance between your work-related responsibilities and investing into your own professional development.

## FULL TIME PROGRAMMES PRESENTED AT CTU SANDTON

### NETWORK PROFESSIONAL: CISCO

This in-demand curriculum provides the student with all the skills needed to set up and configure an advanced network infrastructure. This includes Small Office/Home Office (SOHO) networks, all the way to the new "Campus Style" network infrastructure. All of this is done using the industry leading CISCO brand of equipment and implementations.

As the sophisticated network process increases, there will also be a need to increase the level of skills such as security, voice and wireless. A CCNA certification would mean that you will have the capacity to build on the core networking skills thanks to the highly specialized concentration paths to springboard your career in both current and developing technologies.

This certification will benefit the employee as well as the employer thanks to the valuable process provided by the available modules in networking systems.

### RED HAT ACADEMY

Red Hat Training's hands-on, task-focused courses and Red Hat certifications provide you with the skills you need to implement real-world changes better and faster. Since that knowledge is coming from the source, you know it's the most relevant, current, and comprehensive education out there.

RED HAT  
ACADEMY

### SOFTWARE DEVELOPER: MCSD

Demonstrate your expertise at designing and developing fast and fluid applications that are the focal point of the user experience on Windows Consumer Preview by earning the Microsoft Certified Solutions Developer (MCSD): Windows Store Apps certification.

Get recognized for your expertise in creating and developing modern web applications and services by earning the Microsoft Certified Solutions Developer (MCSD): Web Applications certification.

### PROJECT MANAGEMENT

Project management consists of the planning, organisation, motivation as well as the control and allocation of resources needed to achieve specific goals and objectives. The primary purpose of this qualification is to provide learners with a foundation of basic project management knowledge and skills which can be used to build further project management related competencies.
