FACULTY OF INFORMATION TECHNOLOGY

Occupational Studies: 2024 Fact Sheet

Programme Title	SAQA ID	Credits	NQF
Occupational Certificate: Software Developer	118707	220	5

Programme description

Dive into the art of coding, where you'll bring software solutions to life from the ground up. Whether it's crafting the next hit app or developing software that solves real-world problems, you'll learn to analyze requirements, code flawlessly, and refine applications to perfection.

This is an immersive course designed for aspiring software engineers and computer enthusiasts who wish to dive deep into the world of coding and software creation. A Software Developer analyses a set of requirements, and translates these into a working software solution using a programming language. They test, implement and maintain software applications to meet client specifications as well as functional and technical requirements.

Admission requirements

The minimum entry requirement for this qualification is:

- ▶ NQF level 4 qualification

Mode of study | Duration

Day Classes (full time): 24 Months (5 days/week)

Evening Classes (part time): 24 Months, (2 x evening classes per week, 18:00 - 21:00, Mon & Wed or Tues & Thurs as well as 2 x Saturday classes per month)

Distance Learning (self study): 24 Months

This is a self-study programme. However, students will be privileged to attend tutorial classes twice a month from 9 am – 4 pm (Optional).

Programme outline

Modules

Year 1

COM411: Computer Architecture

DAG411: Data Governance

DAV411: Data Visualization

LOT412: Logical Thinking

COT412: Computing Theory

WEB512: Web Development

Year 2

DAM512: Data Modelling

DAB511: Databases

PRG511: Programming

INR512: Industrial Revolutions

Teaching and Learning Methodology

A blended teaching and Learning methodology is followed. All theory classes will be conducted Virtually through Lecturer-led interactive teaching on a national basis. A flipped classroom approach will be followed in some sessions. This means that students are introduced to content at home and practice working through it during the applicable session, either the virtual theory sessions or the practical sessions. All students will be allocated to lecturers that are not necessarily based at the campus of enrollment but who will always be subject matter experts. CTU implements a national academic standard and all lecturers have been appointed on the same criteria and use the same academic content in the teaching and learning process. The adherence to a national academic standard is monitored by the Academic Management team at the Head office. Therefore, all students will continue to receive the same quality of education. Students will attend some practical, group, and research sessions on campus or virtually.

The same work and time will be spent on both methods, face to face and VLIT, with students. Extra practical sessions can be booked with the Campus Operational Manager. Students will be expected to attend the practical, group, and research classes on campus a minimum of two days a week, as per the campus schedule.

Textbooks and e-guides

A list of prescribed textbooks will be provided in your e-guides. Students will receive an electronic version of the academic guides (e-guides) for this programme on the Teaching and Learning platform. Access is available to an electronic library of textbooks on O'Reilly, and it is included in the fees. Refer to the [Device Specifications and Stationery List](#) document for more information.

Technology hardware, software and data requirements

Because CTU is embracing the future of education - education beyond the classroom - it is compulsory for students to have their own laptop with the necessary specifications to speed up their journey to success.

Student Support

Student support sessions with the facilitator will also take place on a one-on-one basis either virtually or physically at the campus per appointment or per the academic schedule.

External Summative Assessment and Certification

In order to qualify for the external summative assessment, learners must have a copy of a completed and signed Statement of Work Experience as well as proof of successful completion of the Knowledge Modules and Practical Skills Modules.

Upon completion of this course, students will be awarded an **Occupational Certificate: Software Developer from the QCTO**.

International Certifications

Included in price

Year 1:

- ▶ AZ-204: Developing Solutions for Microsoft Azure

Year 2:

- ▶ AZ-400: Designing and Implementing Microsoft DevOps Solutions

Students own account

Year 1:

- ▶ AWS Cloud Practitioner
- ▶ AZ-900: Microsoft Azure Fundamentals

Year 2:

- ▶ CompTIA Data+
- ▶ AI-900: Azure AI Fundamentals
- ▶ AI-102: Designing and Implementing a Microsoft Azure AI Solution

Career fields

Students can be employed in the following career fields:

- ▶ Software Developer/Engineer
- ▶ Front-End Developer
- ▶ Back-End Developer
- ▶ Full-Stack Developer
- ▶ Mobile App Developer
- ▶ DevOps Engineer

What is EISA?

The External Integrated Summative Assessment (EISA) is an integral and critical component of the QCTO's quality assurance system. It is a single national assessment leading to the awarding of an Occupational Certificate. EISA ensures that the assessment of occupational qualifications, part qualifications and trades is standardised, consistent and credible.

For learners to qualify for entry to EISA, they must provide proof of completion of all required knowledge, practical and work experience modules as stipulated in the qualification. The statement of results obtained from the Skills Development Provider serves as proof that the candidate has satisfied all the requirements to be admitted to sit for EISA.

Pricing*

Programme	Registration Fees	Tuition fee
Year 1	R9 000	R62 000
Year 2	R9 000	R68 200

*** Excludes external fees and identified textbooks if applicable. * Prices are subject to annual adjustments.**

Payment
