

FACT SHEET

Electrical Engineering
N4-N6

Electrical Engineering N4-N6

FACULTY OF ENGINEERING

NATED Studies: 2025/2026 Fact Sheet

Programme Title	SAQA ID	Level	NQF
National N Diploma: Electrical Engineering SAQA ID: 90674	66881	N4	5
	66960	N5	5
	67005	N6	5

Programme description

The Electrical Engineering programme is the study and application of electricity, electronics, and electromagnetism. Electrical Engineers study the uses of electricity and equipment for power generation and distribution. This dynamic field involves the design of electronic circuits from basic household equipment to complex systems such as aircraft autopilots and state-of-the-art computers. Microelectronics, the manufacture and repair of products like computers, microwaves, and control systems, also falls within the field of Electrical Engineering.

Electrical Engineering provides the knowledge, skills, and management experience needed for technical and professional careers in instrumentation and control, technical sales and field services, electronics manufacturing, and electrical power operations. Electrical Engineering involves the design, study, development, and manufacture of various electrical and electronic systems.

Admission requirements

- ▶ N3 National Certificate
- ▶ Grade 12 (Pure Mathematics/Technical Mathematics & Physical Sciences/Technical Sciences)
- ▶ NCV Level 4
- ▶ Recognition of Prior Learning (RPL)

Mode of study | Duration

Day Classes (full time): 18 Months, (5 days/week)

Evening Classes (part time) 18 Months, (3 x evening classes per week, as well as 2 x Saturday classes per month)

(6 Months per level)

***Distance Learning** (self study): 24 Months

This is a self-study programme. However, students will be privileged to attend tutorial classes twice a month from 9 am – 4 pm (Optional).

Programme outline

First Year 1st Semester Subjects:

- ▶ EMG411: Engineering Mathematics N4
- ▶ ENS411: Engineering Science N4
- ▶ IEE411: Industrial Electronics N4
- ▶ EET411: Electrotechnics N4

First Year 2nd Semester Subjects:

- ▶ EMG511: Engineering Mathematics N5
- ▶ POM511: Power Machines N5

- ▶ IEE511: Industrial Electronics N5
- ▶ EET511: Electrotechnics N5

Second Year 1st Semester Subjects:

- ▶ EMG611: Engineering Mathematics N6
- ▶ POM611: Power Machines N6
- ▶ IEE611: Industrial Electronics N6
- ▶ EET611: Electrotechnics N6

Teaching and Learning Methodology

A blended teaching and Learning methodology is followed. All theory classes will be conducted Virtually through Lecturer-led interactive teaching on a national basis. A flipped classroom approach will be followed in some sessions. This means that students are introduced to content at home and practice working through it during the applicable session, either the virtual theory sessions or the practical sessions.

All students will be allocated to lecturers that are not necessarily based at the campus of enrollment but who will always be subject matter experts. CTU implements a national academic standard and all lecturers have been appointed on the same criteria and use the same academic content in the teaching and learning process. The adherence to a national academic standard is monitored by the Academic Management team at the Head office. Therefore, all students will continue to receive the same quality of education.

Students will attend some practical, group, and research sessions on campus or virtually. The same work and time will be spent on both methods, face to face and VLIT, with students. Extra practical sessions can be booked at the campus with the Campus Operational Manager. Students will be expected to attend practical, group, and research classes on campus a minimum of two days a week, as per the campus schedule.

Textbooks and e-guides

A list of prescribed textbooks will be provided in your e-guides. Students will receive an electronic version of the academic guides (e-guides) for this programme on the Teaching and Learning platform. Access is available to an electronic library of textbooks on O'Reilly, and it is included in the fees. Refer to the [Device Specifications and Stationery List](#) document for more information.

Electrical Engineering N4-N6

Technology hardware, software and data requirements

A laptop is required to access the VLIT sessions, all study material, and complete assessments etc.

For additional information please consult the CTU Bring your own device guide.

A minimum of 20 GB data per month (uncapped recommended) is required to access training material.

Student Support

Student support sessions with the facilitator will also take place on a one-on-one basis either virtually or physically at the campus per appointment or per the academic schedule.

Results and certification

- ▶ Certificates and diplomas are issued by the DHET.
- ▶ All qualifications are nationally recognised by industry and universities
- ▶ All result letters will only be issued by the DHET.
- ▶ Release of statements of results and certificates are dependent on DHET timelines and are not within CTU's control

Upon successful completion of this programme, learners will receive a:

- ▶ National Certificate at each level N4, N5, N6
- ▶ National N Diploma in Electrical Engineering (on completion of N4 - N6 and 24 months in-service training).

International certifications

- ▶ Year 1: MS Word and MS Excel
- ▶ Year 2: MS Powerpoint
- ▶ Year 1 & 2: AutoCAD User

Career fields

Students can be employed in the following career fields:

- ▶ Power Systems Engineer
- ▶ Instrumentation Technician
- ▶ Control Systems Engineer
- ▶ Electrical & Circuit Design Engineer
- ▶ Electrical Technician

Articulation

A candidate who has successfully completed the N4, N5 and N6 Certificates, may pursue the following path to obtain the National N Diploma, as per Report 191 by the DHET.

The candidate must have:

- ▶ A minimum of 12 advanced instructional offerings, with at least a pass in three instructional offerings in each of the following levels: N4, N5 and N6, but with a maximum of five N4 instructional offerings.
- ▶ 2 instructional offerings at N6 level must be relevant to the candidate's vocation.

- ▶ The candidate must obtain work experience of 24 months in an industry that has as its main function the practical execution of the 2 instructional offerings mentioned above.

Further studies

Students may pursue further studies at CTU by enrolling for any of the following:

- ▶ Higher Occupational Certificate: Architectural Draughtsperson, NQF 5, SAQA - 121692

Pricing*

Per Level

Programme	Registration Fees	Tuition fee
N4	R6 750	R21 045
N5	R6 750	R21 045
N6	R6 750	R21 045

*** Excludes external fees and identified textbooks if applicable.**

Payment

Visit our website to view the payment method.

Payment Methods.

APPLY for Student Loan [HERE!](#)

Additional costs

Students must make provision for additional items such as textbooks, stationery, supplementary examinations, research costs and printing, field trips etc.

Disclaimer

The content of this fact sheet is subject to change without notification due to market trends in the industry, legislation and/or programme version updates. Refer to website for the latest version of the prospectus. CTU Training Solutions (PTY) Ltd reserves the right to change the programme content without prior notice.. Additional international exams may be written but are not included in the programme fee. Minimum student (capacity) group sizes will fall into the Virtual Instructor-Led programme commencing in the months of February & July of each year.
